

Resources/Ideas

- Pick themes around holidays. There are great holiday books, crafts and snack ideas out there. I often make mini cupcakes for the holidays. We decorate gingerbread men at Christmas. At Easter we have Easter Egg Hunts (with eggs filled with gold fish, graham crackers).
- There are GREAT websites out there with MANY crafts ideas that require only construction paper and glue sticks. (See some of my favorites on the reverse side).
- Hit the sales at places like Michaels and other craft stores around the holidays for cheap craft supplies. The kids LOVE the foam stickers and glue sticks.
- Homemade playdough goes a LONG way. Pass out the recipe and encourage the parents to make it at home. The best part is that it's non toxic and it LASTS for a long time!
