

Parent Testimonials

- **Just some more general feedback....**

- "I've bragged on this program many times to others. I loved that it was open to all Alexandria children and was not income or eligibility based."
- "It was a wonderful way to meet other parents and children when we first moved to the area. It's a great service the city provides for the neighborhood."
- "Playgroup is a wonderful resource! The networking and idea sharing that occurs while children are playing is very helpful. The leader is a very approachable resource of information for the parents."
- "Playgroup has enriched my daughter's socialization skills and is a wonderful place for her to meet friends in her age group that she sees on a consistent basis."
- "Keep this program going. I wish we had something like it in our new community. We miss it terribly. My three year old still talks about it and we haven't been there in almost a year."
- "Having three toddlers that are almost two in the house is challenging. Getting them out of the house and interacting with other children has been a life-saver."
- "I am thankful for the playgroup. It has been a big support for me. I have met so many nice moms and children that I would not have met otherwise."
- "I never thought of it as a place for parents to bring their infants and toddlers with special needs but now I see that. Consider advertising it so that parents who aren't sure if their child is ok, can go to group to learn more and get some advice."
