The following document has been developed by the DEC Program Review Committee as a resource for program developers in states that use the Early Childhood edTPA as a required assessment. It must be noted that this alignment is based on a program using the edTPA rubrics with no modification and following all edTPA standard protocols.

It is also important to understand that data from the edTPA can contribute to the evidence given for meeting a specific EI/ECSE component but the edTPA, by its nature, will never be sufficient as the sole source of evidence for any single component. If the edTPA is cited as one of the 6-8 programmatic assessments it can be used wholistically or Task 1, 2, or 3 may be cited as an individual assessment. However, the edTPA or a part/parts of it can constitute only one of the programmatic assessments. If the whole is used, parts cannot be used; or if a part is used, the whole cannot be used nor can any other part.

An "X" in a column indicates that the specific edTPA rubric provides some support for meeting the identified EI/ECSE Standard Component.

| 1.0 Candidates understand the impact of different theories and philosophies of early learning and development on assessment, | | | | | | | | | | | | | | | | | |
| curriculum, instruction, and intervention decisions. Candidates apply | | | | | | | | | | | | | | | | | |
| knowledge of normative developmental sequences and variations, | | | | | | | | | | | | | | | | | |
| individual differences within and across the range of abilities, including | | | | | | | | | | | | | | | | | |
| developmental delays and disabilities, and other direct and indirect | | | | | | | | | | | | | | | | | |
| contextual features that support or constrain children's development | | | | | | | | | | | | | | | | | |
| and learning. These contextual factors as well as social, cultural, and | | | | | | | | | | | | | | | | | |
| linguistic diversity are considered when facilitating meaningful learning | | | | | | | | | | | | | | | | | |
| experiences and individualizing intervention and instruction across contexts. | | | | | | | | | | | | | | | | | |
| 1.1. Candidates demonstrate an understanding of the impact that | | | | | | | | | | | | | | | <u> </u> | | |

October, 2022 1.2. Candidates apply knowledge of normative sequences of early development, individual differences, and families' social, cultural, and Х Х Х Х Х Х Х Х linguistic diversity to support each child's development and learning across contexts. 1.3. Candidates apply knowledge of biological and environmental factors that may support or constrain children's early development and Х Х Х Х Х Х Х Х Х learning as they plan and implement early intervention and instruction. 1.4. Candidates demonstrate an understanding of characteristics, etiologies, and individual differences within and across the range of abilities, including developmental delays and disabilities, their potential Х Х Х Х Х Х Х Х Х impact on children's early development and learning, and implications for assessment, curriculum, instruction, and intervention. 2.0 Candidates use their knowledge of family-centered practices and family systems theory to develop and maintain reciprocal partnerships with families. They apply family capacity-building practices as they support families to make informed decisions and advocate for their young children. They engage families in opportunities that build on their existing strengths, reflect current goals, and foster family competence and confidence to support their children's development and learning. 2.1 Candidates apply their knowledge of family-centered practices, family systems theory, and the changing needs and priorities in families' lives to develop trusting, respectful, affirming, and culturally responsive partnerships with all families that allow for the mutual exchange of knowledge and information. 2.2 Candidates communicate clear, comprehensive, and objective information about resources and supports that help families to make informed decisions and advocate for access, participation, and equity in natural and inclusive environments. 2.3 Candidates engage families in identifying their strengths, priorities, and concerns; support families to achieve the goals they have for their family and their young child's development and learning; and promote families' competence and confidence during assessment, individualized planning, intervention, instruction, and transition processes.

| 3.0 Candidates apply models, skills, and processes of teaming | | | | | | |
|--|--|--|--|--|--|--|
| when collaborating and communicating with families and | | | | | | |
| professionals, using culturally and linguistically responsive and | | | | | | |
| affirming practices. In partnership with families and other | | | | | | |
| professionals, candidates develop and implement individualized | | | | | | |
| plans and successful transitions that occur across the age span. | | | | | | |
| Candidates use a variety of collaborative strategies while working | | | | | | |
| with and supporting other adults. | | | | | | |
| 3.1 Candidates apply teaming models, skills, and processes, | | | | | | |
| including appropriate uses of technology, when collaborating and | | | | | | |
| communicating with families; professionals representing multiple | | | | | | |
| disciplines, skills, expertise, and roles; and community partners | | | | | | |
| and agencies. | | | | | | |
| 3.2 Candidates use a variety of collaborative strategies when | | | | | | |
| working with other adults that are evidence-based, appropriate to | | | | | | |
| the task, culturally and linguistically responsive, and take into | | | | | | |
| consideration the environment and service delivery approach. | | | | | | |
| 3.3 Candidates partner with families and other professionals to | | | | | | |
| develop individualized plans and support the various transitions | | | | | | |
| that occur for the young child and their family throughout the | | | | | | |
| birth through 8 age span. | | | | | | |
| 4.0 Candidates know and understand the purposes of assessment | | | | | | |
| in relation to ethical and legal considerations. Candidates choose | | | | | | |
| developmentally, linguistically, and culturally appropriate tools | | | | | | |
| and methods that are responsive to the characteristics of the | | | | | | |
| young child, family, and program. Using evidence-based practices, | | | | | | |
| candidates develop or select as well as administer informal | | | | | | |
| measures, and select and administer formal measures in | | | | | | |
| partnership with families and other professionals. They analyze, | | | | | | |
| interpret, document, and share assessment information using a | | | | | | |
| strengths-based approach with families and other professionals for | | | | | | |
| eligibility determination, outcome/goal development, planning | | | | | | |
| instruction and intervention, monitoring progress, and reporting. | | | | | | |
