The following document has been developed by the DEC Program Review Committee as a resource for program developers in states that use the Special Education edTPA as a required assessment. It must be noted that this alignment is based on a program using the edTPA rubrics with no modification and following all edTPA standard protocols.

It is also important to understand that data from the edTPA can contribute to the evidence given for meeting a specific EI/ECSE component but the edTPA, by its nature, will never be sufficient as the sole source of evidence for any single component. If the edTPA is cited as one of the 6-8 programmatic assessments it can be used wholistically or Task 1, 2, or 3 may be cited as an individual assessment. However, the edTPA or a part/parts of it can constitute only one of the programmatic assessments. If the whole is used, parts cannot be used; or if a part is used, the whole cannot be used nor can any other part.

An "X" in a column indicates that the specific edTPA rubric provides some support for meeting the identified EI/ECSE Standard Component.

1.0 Candidates understand the impact of different theories and philosophies of early learning and development on assessment, curriculum, instruction, and intervention decisions. Candidates apply knowledge of normative developmental sequences and variations, individual differences within and across the range of abilities, including developmental delays and disabilities, and other direct and indirect contextual features that support or constrain children's development and learning. These contextual factors as well as social, cultural, and linguistic diversity are considered when facilitating meaningful learning experiences and individualizing intervention and instruction across contexts.																		
1.1. Candidates demonstrate an understanding of the impact that different theories and philosophies of early learning and development have on assessment, curriculum, intervention, and instruction decisions.	х	х	х	х	х	х

1.2. Candidates apply knowledge of normative sequences of early development, individual differences, and families' social, cultural, and linguistic diversity to support each child's development and learning across contexts.	х	х	х	х	х	Х	x								х
1.3. Candidates apply knowledge of biological and environmental factors that may support or constrain children's early development and learning as they plan and implement early intervention and instruction.	х	х	х	х	х	x	x		х		х				
1.4. Candidates demonstrate an understanding of characteristics, etiologies, and individual differences within and across the range of abilities, including developmental delays and disabilities, their potential impact on children's early development and learning, and implications for assessment, curriculum, instruction, and intervention.	х	х	х	х	х	х	х		х		х				
2.0 Candidates use their knowledge of family-centered practices and family systems theory to develop and maintain reciprocal partnerships with families. They apply family capacity-building practices as they															
support families to make informed decisions and advocate for their young children. They engage families in opportunities that build on their existing strengths, reflect current goals, and foster family competence and confidence to support their children's development and learning.															
2.1 Candidates apply their knowledge of family-centered practices, family systems theory, and the changing needs and priorities in families' lives to develop trusting, respectful, affirming, and culturally responsive partnerships with all families that allow for the mutual exchange of knowledge and information.															
2.2 Candidates communicate clear, comprehensive, and objective information about resources and supports that help families to

make informed decisions and advocate for access, participation,															
and equity in natural and inclusive environments.															
2.3 Candidates engage families in identifying their strengths,															
priorities, and concerns; support families to achieve the goals															
they have for their family and their young child's development															
and learning; and promote families' competence and confidence															
during assessment, individualized planning, intervention,															
instruction, and transition processes.															
3.0 Candidates apply models, skills, and processes of teaming															
when collaborating and communicating with families and															
professionals, using culturally and linguistically responsive and															
affirming practices. In partnership with families and other															
professionals, candidates develop and implement individualized															
plans and successful transitions that occur across the age span.															
Candidates use a variety of collaborative strategies while working															
with and supporting other adults.															
3.1 Candidates apply teaming models, skills, and processes,															
including appropriate uses of technology, when collaborating and															
communicating with families; professionals representing multiple															
disciplines, skills, expertise, and roles; and community partners															
and agencies.		<u> </u>			1	1				1	1				
3.2 Candidates use a variety of collaborative strategies when															
working with other adults that are evidence-based, appropriate to															
the task, culturally and linguistically responsive, and take into															
consideration the environment and service delivery approach.

3.3 Candidates partner with families and other professionals to															
develop individualized plans and support the various transitions															
that occur for the young child and their family throughout the															
birth through 8 age span.															
4.0 Candidates know and understand the purposes of assessment															
in relation to ethical and legal considerations. Candidates choose															
developmentally, linguistically, and culturally appropriate tools															
and methods that are responsive to the characteristics of the															
young child, family, and program. Using evidence-based practices,															
candidates develop or select as well as administer informal															
measures, and select and administer formal measures in															
partnership with families and other professionals. They analyze,															
interpret, document, and share assessment information using a															
strengths-based approach with families and other professionals for															
eligibility determination, outcome/goal development, planning															
instruction and intervention, monitoring progress, and reporting.															
4.1. Candidates understand the purposes of formal and informal															
assessment, including ethical and legal considerations, and use															
this information to choose developmentally, culturally and					Х										
linguistically appropriate, valid, reliable tools and methods that															
are responsive to the characteristics of the young child, family,															
and program.											1				
4.2 Candidates develop and administer informal assessments															
and/or select and use valid, reliable formal assessments using					Х										Х
evidence-based practices, including technology, in partnership															
with families and other professionals.

assessment information using a strengths-based approach with															
families and other professionals.															
4.4 Candidates, in collaboration with families and other team															
members, use assessment data to determine eligibility, develop															
child and family-based outcomes/goals, plan for interventions and										Х	Х				Х
instruction, and monitor progress to determine efficacy of															
programming.															
5.0 Candidates collaborate with families and professionals to use															
an evidence-based, developmentally appropriate, and culturally															
responsive early childhood curriculum addressing developmental															
and content domains. Candidates use curriculum frameworks to															
create and support universally designed, high quality learning experiences in natural and inclusive environments that provide															
each child and family with equitable access and opportunities for															
learning and growth.															
5.1 Candidates collaborate with families and other professionals															
in identifying an evidence-based curriculum addressing															
developmental and content domains to design and facilitate		Х	Х												
meaningful and culturally responsive learning experiences that															
support the unique abilities and needs of all children and families.
